Professional Experience

Software Engineer

AppifyDevs 

2025/02 – 2025/12

- Designed and Developed scalable web applications using Next.js.
- Implemented RESTful APIs to support seamless data exchange and integrations.
- Integrated and secured multiple payment services(Stripe, SSLCommerz, PayPal, Bkash) ensuring compliance and reliability.
- Built and maintained a robust Nest.js backend, leveraging MySQL, PostgreSQL, and MongoDB for diverse data management needs

Skills

- **Programming Languages:** Javascript, Typescript, Python(basic).
- **Frontend:** HTML, CSS, React.js, Node.js, Tailwind, Next.js, Firebase, Axios, TanstackQuery, Redux
- **Backend:** Node.js, Nest.js, Express.js, REST API, MySQL, PostgreSQL, MongoDB, Mongoose, TypeORM, Sequelize
- **Tools:** Git, GitHub, Figma, Visual Studio Code, Microsoft office, Gemini, Open AI
- **Interpersonal Skills:** Time Management, Team work, Tech Enthusiastic

Projects

Nexus Wear [A user friendly trusted E-commerce platform]

[Live Link](#) || [Client Link](#) | [Server link](#)

- **Key Features:** Nexus Wear is a secure and scalable e-commerce platform built for reliability and smooth performance. It offers seamless payment integration with PayPal, Stripe, and SSLCommerz to ensure safe and trusted transactions. The platform includes efficient customer, order, and product management through a powerful admin panel, supported by a robust Nest.js and MySQL backend.
- **Technologies Used:** Next.js, Redux, RTK, ShadCn, Nest.js, MySQL, TypeORM, Stripe, SSL, Paypal, cloudfare JWT, TypeScript.

Eventro [A secure, interactive event booking platform]

[Live Link](#) || [Client link](#) | [Server link](#)

- **Key Features:** Optimized for mobile, tablet and desktop, Eye catching design in all page with animation, Secure login and registration with JWT-based private routes, Real-time booking management update and cancel event reservation and notification using Toast to notify user.

Technologies Used: Postgres, Prisma, Express.js, Next.js, Tanstack Query, JWT, Better Auth, Shadcn

Tour Nest [A Tourist Management system, All facilities in one platform]

[Live Link](#) || [Code Link](#) || [Server Link](#)

- **Key Features:** Authorization for Admin, Guide and Tourist/visitor. Different routes for different Role, Stripe payment system for tourist to pay. Status update for every situation, Responsive for all device (mobile, tablet, laptop)
- **Technologies Used:** React.js, Tailwind, React Router Dom, Firebase, Tanstack Query, Axios, Stripe, MongoDB, Express.js, JWT.

Education

- **Shyamoli Ideal Polytechnic Institute**
Diploma in Engineering in Computer Science & Technology (**Duration:** 22-26)

Languages

- Bangla: Native || English: Comfortable
